

Dear Friends

NEWSLETTER NEWS

Jackie and Terry Connell's dedication to International Dolphin Watch is beyond compare. Without their unstinting and enthusiastic support IDW could not keep going.

For the past month or so the Connells have been away from their home on an exciting tour of the North and South Islands of the Land of the Long White Cloud searching out Jackie's New Zealand family history. They have also had friend and family visitors staying at their home.

Jackie and Terry are extremely generous hosts and still have visitors. And I know from personal experience how demanding that can be.

Jackie Connell is the Honorary Editor of the wonderful IDW eNewsletters which she produces entirely on her own with technical support from her husband.

Jackie set herself the hugely ambitious target of producing Newsletters on a roughly monthly basis.

Understandably a Newsletter has not been forthcoming since January 2010. I have therefore asked Jackie to set a lower target and produce more modest newsletters as and when she can find the time and energy to do so.

On behalf of all those who support IDW and Operation Sunshine I thank Terry and Jackie for the sterling work they have done and are still doing on our behalf. And also to let them know that after they have taken some time out to recover from the strenuous but enjoyable activities that have taken place in their lives during the last couple of months we shall look forward to receiving the next Newsletter - possibly at the end of April.

With dolphin joy and freedom

Dr Horace Dobbs

Honorary Director International Dolphin Watch
